Field	Definition
Filter options	
Reporting periods	
ReportingPeriod_Data	<p>The year covered by the row of data (1st April to 31st March). Available years:</p> <p>2009-10 2010-11 2011-12 2012-13 2013-14 2014-15 2015-16 2016-17 2017-18 2018-19 2019-20 2020-21 2021-22</p>
Sex	
sex	Sex at birth (female or male)
Geographical area	
Area	The chosen local authority, the associated region and national
Substance categories	
Drug_group	<p>Individuals presenting to adult alcohol and drug treatment services are categorised by the substances they cite as problematic at the start of treatment. They are categorised by the following hierarchal criteria:</p> <ul style="list-style-type: none"> • any mention of opiate use would result in the person being categorised as an OPIATE client (irrespective of what other substances are cited) • people who present with non-opiate substances (without opiates or alcohol) will be classified as NON-OPIATE ONLY

Field	Definition
	<ul style="list-style-type: none"> people who present with a non-opiate substance and problematic alcohol use during their treatment journeys will be classified as NON-OPIATE AND ALCOHOL people who present with alcohol and no other substances will be categorised as ALCOHOL ONLY
Age group	
age_group	Age group (18-29, 30-49 or 50+)
Key indicators	
Treatment categories	
intreatment_allintx	Total number of individuals in treatment in the reporting period
newpresentation_newtx	Total number of individuals that started treatment in the reporting period
Indicator – ethnicity – all in treatment	
eth_white_allintx	The total number of individuals in the reporting period reporting an ethnicity of white British, white Irish, white Gypsy, Roma, Traveller or Irish Traveller or other white ethnicity
eth_mixed_allintx	The total number of individuals in the reporting period reporting an ethnicity of white and Black Caribbean, white and Black African, white and Asian or other mixed ethnicity
eth_asian_allintx	The total number of individuals in the reporting period reporting an ethnicity of Indian, Pakistani, Bangladeshi or other Asian ethnicity
eth_black_allintx	The total number of individuals in the reporting period reporting an ethnicity of Caribbean, African or other Black ethnicity
eth_other_allintx	The total number of individuals in the reporting period reporting an ethnicity of Chinese or other ethnic group
Indicator – ethnicity – new presentations	
eth_white_newtx	The total number of individuals starting treatment in the reporting period reporting an ethnicity of white British, white Irish, white Gypsy, Roma, Traveller or Irish Traveller or other white ethnicity

Field	Definition
eth_mixed_newtx	The total number of individuals starting treatment in the reporting period reporting an ethnicity of white and Black Caribbean, white and Black African, white and Asian or other mixed ethnicity
eth_asian_newtx	The total number of individuals starting treatment in the reporting period reporting an ethnicity of Indian, Pakistani, Bangladeshi or other Asian ethnicity
eth_black_newtx	The total number of individuals starting treatment in the reporting period reporting an ethnicity of Caribbean, African or other Black ethnicity
eth_other_newtx	The total number of individuals starting treatment in the reporting period reporting an ethnicity of Chinese or other ethnic group
Indicator – source of referral – new presentations	
referralsource_criminal_justice_newtx	The total number of individuals referred to treatment in the reporting period via a criminal justice related pathway
referralsource_health_services_social_care_newtx	The total number of individuals referred to treatment in the reporting period via health services or social care
referralsource_missing_newtx	The total number of individuals referred to treatment in the reporting period where the referral source was missing or inconsistent
referralsource_other_newtx	The total number of individuals referred to treatment in the reporting period via a pathway which falls out of the main groupings
referralsource_self_family_friends_newtx	The total number of individuals referred to treatment in the reporting period via self-referral, family or friends
referralsource_substance_misuse_service_newtx	The total number of individuals referred to treatment in the reporting period via substance misuse services
Indicator – housing situation – new presentations	
housingsituation_urgentproblem_newtx	The total number of individuals referred to treatment in the reporting period with a housing situation of "urgent problem"
housingsituation_housingproblem_newtx	The total number of individuals referred to treatment in the reporting period with a housing situation of "housing problem"
housingsituation_noproblem_newtx	The total number of individuals referred to treatment in the reporting period with a housing situation of "no problem"
housingsituation_other_newtx	The total number of individuals referred to treatment in the reporting period with a housing situation of "other"

Field	Definition
housingsituation_notstatedormissing_newtx	The total number of individuals referred to treatment in the reporting period with a housing situation "not stated" or "missing"
Indicator – waiting times – new presentations	
waitsfirst_3weeksandunder_newtx	The total number of first interventions with a waiting time of under 3 weeks for people starting treatment in the reporting period
waitsfirst_3to6weeks_newtx	The total number of first interventions with a waiting time of 3 to 6 weeks for people starting treatment in the reporting period
waitsfirst_over6weeks_newtx	The total number of first interventions with a waiting time of greater than 6 weeks for people starting treatment in the reporting period
waitssub_3weeksandunder_newtx	The total number of subsequent treatment intervention with a waiting time of under 3 weeks for people starting treatment in the reporting period
waitssub_3to6weeks_newtx	The total number of subsequent treatment intervention with a waiting time of 3 to 6 weeks for people starting treatment in the reporting period
waitssub_over6weeks_newtx	The total number of subsequent treatment intervention with a waiting time of greater than 6 weeks for people starting treatment in the reporting period
Indicator – treatment exits – all in treatment	
exits_successfulcompletion_allintx	The total number of individuals leaving treatment in the reporting period who completed successfully
exits_died_allintx	The total number of individuals leaving treatment in the reporting period who died
exits_droppedout_allintx	The total number of individuals leaving treatment in the reporting period who dropped out of treatment
exits_movedaway_allintx	The total number of individuals leaving treatment in the reporting period who moved away
exits_noappropriatetreatment_allintx	The total number of individuals leaving treatment in the reporting period where no appropriate treatment was offered
exits_notknown_allintx	The total number of individuals leaving treatment in the reporting period whose discharge reason was unknown
exits_other_allintx	The total number of individuals leaving treatment in the reporting period who discharged with a not known status, not listed elsewhere
exits_prison_allintx	The total number of individuals leaving treatment in the reporting period who went to prison

Field	Definition
exits_transferrednotincustody_allintx	The total number of individuals leaving treatment in the reporting period who transferred, out of custody
exits_transferredincustody_allintx	The total number of individuals leaving treatment in the reporting period who transferred, into custody
exits_referredon_allintx	The total number of individuals leaving treatment in the reporting period who were referred on
exits_treatmentdeclined_allintx	The total number of individuals leaving treatment in the reporting period who declined further treatment
exits_treatmentwithdrawn_allintx	The total number of individuals leaving treatment in the reporting period who had their treatment withdrawn
exits_inconsistent_allintx	The total number of individuals leaving treatment in the reporting period whose discharge status was inconsistent
Indicator – parental/family status – all in treatment	
safeguarding_parentlivingwithchildren_allintx	The total number of individuals in treatment in the reporting period who are parents living with children
safeguarding_othercontactlivingwithchildren_allintx	The total number of individuals in treatment in the reporting period who are have other contact with children
safeguarding_parentsnotwithchildren_allintx	The total number of individuals in treatment in the reporting period who are parents not living with children
safeguarding_notparentnocontactwithchildren_allintx	The total number of individuals in treatment in the reporting period who are not parents and are not living with children
safeguarding_livingwithincompletedata_allintx	The total number of individuals in treatment in the reporting period whose parental/childcare status is incomplete or missing
safeguarding_num_of_children_allintx	The total number of children living with people in treatment in the reporting period
safeguarding_parentlivingwithchildren_newtx	The total number of individuals starting treatment in the reporting period who are parents living with children
safeguarding_othercontactlivingwithchildren_newtx	The total number of individuals starting treatment in the reporting period who are have other contact with children
safeguarding_parentsnotwithchildren_newtx	The total number of individuals starting treatment in the reporting period who are parents not living with children

Field	Definition
safeguarding_notparentnocontactwithchildren_newtx	The total number of individuals starting treatment in the reporting period who are not parents and are not living with children
safeguarding_livingwithincompletedata_newtx	The total number of individuals starting treatment in the reporting period whose parental/childcare status is incomplete or missing
safeguarding_num_of_children_newtx	The total number of children living with people starting treatment in the reporting period
Indicator – employment status – new presentations	
employmentstatus_regularemployment_newtx	The total number of individuals starting treatment in the reporting period with an employment status of regular employment
employmentstatus_unemployedinactive_newtx	The total number of individuals starting treatment in the reporting period with an employment status of unemployed or inactive
employmentstatus_longtermsickdisabled_newtx	The total number of individuals starting treatment in the reporting period with an employment status of long term sick or disabled
employmentstatus_ineducation_newtx	The total number of individuals starting treatment in the reporting period with an employment status of in education
employmentstatus_unpaidvoluntary_newtx	The total number of individuals starting treatment in the reporting period with an employment status of unpaid voluntary work
employmentstatus_other_newtx	The total number of individuals starting treatment in the reporting period with an employment status of other
employmentstatus_notstatedmissing_newtx	The total number of individuals starting treatment in the reporting period with an employment status of not stated or missing
Indicator – length in treatment – all in treatment	
lengthintreatment_under1year_allintx	The total number of individuals in treatment in the reporting period for under 1 year
lengthintreatment_1to2years_allintx	The total number of individuals in treatment in the reporting period for between 1 to 2 years
lengthintreatment_2to4years_allintx	The total number of individuals in treatment in the reporting period for between 2 to 4 years
lengthintreatment_4to6years_allintx	The total number of individuals in treatment in the reporting period for between 4 to 6 years
lengthintreatment_over6years_allintx	The total number of individuals in treatment in the reporting period for over 6 years

Field	Definition
Indicator – alcohol units consumed – all in treatment	
alc_units_0_allintx	The total number of individual in treatment in the reporting period drinking 0 units of alcohol in a typical month
alc_units_1to199_allintx	The total number of individual in treatment in the reporting period drinking between 1 to 199 units of alcohol in a typical month
alc_units_200to399_allintx	The total number of individual in treatment in the reporting period drinking between 200 to 399 units of alcohol in a typical month
alc_units_400to599_allintx	The total number of individual in treatment in the reporting period drinking between 400 to 599 units of alcohol in a typical month
alc_units_600to799_allintx	The total number of individual in treatment in the reporting period drinking between 600 to 799 units of alcohol in a typical month
alc_units_800to999_allintx	The total number of individual in treatment in the reporting period drinking between 800 to 999 units of alcohol in a typical month
alc_units_1000andover_allintx	The total number of individual in treatment in the reporting period drinking over 1000 units of alcohol in a typical month
Indicator – substance use – all in treatment	
substanceanycitation_opiatesandorcrack_allintx	The total number of individuals in treatment in the reporting period citing opiates and/or crack cocaine use as problematic
substanceanycitation_opiatesandcrack_allintx	The total number of individuals in treatment in the reporting period citing opiates and crack cocaine use as problematic
substanceanycitation_opiatesnotcrack_allintx	The total number of individuals in treatment in the reporting period citing opiates but not crack cocaine use as problematic
substanceanycitation_cracknotopiates_allintx	The total number of individuals in treatment in the reporting period citing crack cocaine but not opiates use as problematic
substanceanycitation_benzodiazepines_allintx	The total number of individuals in treatment in the reporting period citing benzodiazepine use as problematic
substanceanycitation_amphetamines_allintx	The total number of individuals in treatment in the reporting period citing amphetamines (not including ecstasy) use as problematic
substanceanycitation_cocaine_allintx	The total number of individuals in treatment in the reporting period citing cocaine use as problematic

Field	Definition
substanceanycitation_hallucinogens_allintx	The total number of individuals in treatment in the reporting period citing hallucinogens use as problematic
substanceanycitation_clubdrug_ecstasy_allintx	The total number of individuals in treatment in the reporting period citing ecstasy use as problematic
substanceanycitation_cannabis_allintx	The total number of individuals in treatment in the reporting period citing cannabis use as problematic
substanceanycitation_solvents_allintx	The total number of individuals in treatment in the reporting period citing Solvents as problematic
substanceanycitation_barbiturates_allintx	The total number of individuals in treatment in the reporting period citing Barbiturates as problematic
substanceanycitation_majortranquillisers_allintx	The total number of individuals in treatment in the reporting period citing major tranquilisers as problematic
substanceanycitation_antidepressants_allintx	The total number of individuals in treatment in the reporting period citing antidepressants as problematic
substanceanycitation_alcohol_allintx	The total number of individuals in treatment in the reporting period citing alcohol use as problematic
substanceanycitation_khat_allintx	The total number of individuals in treatment in the reporting period citing khat as problematic
substanceanycitation_otherdrugs_allintx	The total number of individuals in treatment in the reporting period citing drugs which do not fit within the other categories in this section as problematic
substanceanycitation_prescriptiondrugsother_allintx	The total number of individuals in treatment in the reporting period citing prescription drugs as problematic
substanceanycitation_npsother_any_allintx	The total number of individuals in treatment in the reporting period citing NPS use as problematic
substanceanycitation_nonopiates_allintx	The total number of individuals in treatment in the reporting period citing non-opiates as problematic
substanceanycitation_prescripopiates_allintx	The total number of individuals in treatment in the reporting period citing prescription opiates as problematic
substanceanycitation_npsother_predomstim_allintx	The total number of individuals in treatment in the reporting period citing NPS, predominantly stimulant, as problematic

Field	Definition
substanceanycitation_npsother_predomhalluc_allintx	The total number of individuals in treatment in the reporting period citing NPS, predominantly hallucinogenic, as problematic
substanceanycitation_npsother_predomdissoc_allintx	The total number of individuals in treatment in the reporting period citing NPS, predominantly dissociative, as problematic
substanceanycitation_npsother_predomsedopi_allintx	The total number of individuals in treatment in the reporting period citing NPS, predominantly sedative, as problematic
substanceanycitation_npsother_predomcann_allintx	The total number of individuals in treatment in the reporting period citing NPS, predominantly cannabinoid (SCRAS), as problematic
substanceanycitation_npsother_other_allintx	The total number of individuals in treatment in the reporting period citing NPS, of a type not stipulated elsewhere, as problematic
substanceanycitation_clubdrug_ketamine_allintx	The total number of individuals in treatment in the reporting period citing ketamine as problematic
substanceanycitation_clubdrug_ghbgbl_allintx	The total number of individuals in treatment in the reporting period citing GHB/GBL as problematic
substanceanycitation_clubdrug_methamphetamine_allintx	The total number of individuals in treatment in the reporting period citing methamphetamine as problematic
substanceanycitation_clubdrug_mephedrone_allintx	The total number of individuals in treatment in the reporting period citing mephedrone as problematic
substanceanycitation_anyclubdrug_allintx	The total number of individuals in treatment in the reporting period citing any "club drug" as problematic
Indicator – substance use – new presentations	
substanceanycitation_opiatesandorcrack_newtx	The total number of individuals starting treatment in the reporting period citing opiates and/or crack cocaine use as problematic
substanceanycitation_opiatesandcrack_newtx	The total number of individuals starting treatment in the reporting period citing opiates and crack cocaine use as problematic
substanceanycitation_opiatesnotcrack_newtx	The total number of individuals starting treatment in the reporting period citing opiates but not crack cocaine use as problematic
substanceanycitation_cracknotopiates_newtx	The total number of individuals starting treatment in the reporting period citing crack cocaine but not opiates use as problematic
substanceanycitation_benzodiazepines_newtx	The total number of individuals starting treatment in the reporting period citing benzodiazepine use as problematic

Field	Definition
substanceanycitation_amphetamines_newtx	The total number of individuals starting treatment in the reporting period citing amphetamines (not including ecstasy) use as problematic
substanceanycitation_cocaine_newtx	The total number of individuals starting treatment in the reporting period citing cocaine use as problematic
substanceanycitation_hallucinogens_newtx	The total number of individuals starting treatment in the reporting period citing hallucinogens use as problematic
substanceanycitation_clubdrug_ecstasy_newtx	The total number of individuals starting treatment in the reporting period citing ecstasy use as problematic
substanceanycitation_cannabis_newtx	The total number of individuals starting treatment in the reporting period citing cannabis use as problematic
substanceanycitation_solvents_newtx	The total number of individuals starting treatment in the reporting period citing Solvents as problematic
substanceanycitation_barbiturates_newtx	The total number of individuals starting treatment in the reporting period citing Barbiturates as problematic
substanceanycitation_majortranquillisers_newtx	The total number of individuals starting treatment in the reporting period citing major tranquilisers as problematic
substanceanycitation_antidepressants_newtx	The total number of individuals starting treatment in the reporting period citing antidepressants as problematic
substanceanycitation_alcohol_newtx	The total number of individuals starting treatment in the reporting period citing alcohol use as problematic
substanceanycitation_khat_newtx	The total number of individuals starting treatment in the reporting period citing khat as problematic
substanceanycitation_otherdrugs_newtx	The total number of individuals starting treatment in the reporting period citing drugs which do not fit within the other categories in this section as problematic
substanceanycitation_prescriptiondrugsother_newtx	The total number of individuals starting treatment in the reporting period citing prescription drugs as problematic
substanceanycitation_npsother_any_newtx	The total number of individuals starting treatment in the reporting period citing NPS use as problematic
substanceanycitation_nonopiates_newtx	The total number of individuals starting treatment in the reporting period citing non-opiates as problematic

Field	Definition
substanceanycitation_prescripopiates_newtx	The total number of individuals starting treatment in the reporting period citing prescription opiates as problematic
substanceanycitation_npsother_predomstim_newtx	The total number of individuals starting treatment in the reporting period citing NPS, predominantly stimulant, as problematic
substanceanycitation_npsother_predomhalluc_newtx	The total number of individuals starting treatment in the reporting period citing NPS, predominantly hallucinogenic, as problematic
substanceanycitation_npsother_predomdissoc_newtx	The total number of individuals starting treatment in the reporting period citing NPS, predominantly dissociative, as problematic
substanceanycitation_npsother_predomsedopi_newtx	The total number of individuals starting treatment in the reporting period citing NPS, predominantly sedative, as problematic
substanceanycitation_npsother_predomcann_newtx	The total number of individuals starting treatment in the reporting period citing NPS, predominantly cannabinoid (SCRAS), as problematic
substanceanycitation_npsother_other_newtx	The total number of individuals starting treatment in the reporting period citing NPS, of a type not stipulated elsewhere, as problematic
substanceanycitation_clubdrug_ketamine_newtx	The total number of individuals starting treatment in the reporting period citing ketamine as problematic
substanceanycitation_clubdrug_ghbgbl_newtx	The total number of individuals starting treatment in the reporting period citing GHB/GBL as problematic
substanceanycitation_clubdrug_methamphetamine_newtx	The total number of individuals starting treatment in the reporting period citing methamphetamine as problematic
substanceanycitation_clubdrug_mephedrone_newtx	The total number of individuals starting treatment in the reporting period citing mephedrone as problematic
substanceanycitation_anyclubdrug_newtx	The total number of individuals starting treatment in the reporting period citing any "club drug" as problematic
Indicator – length in treatment – all in treatment	
lengthintreatment_under1year_exits_allintx	The total number of individuals leaving treatment in the reporting period who had been in treatment for under 1 year
lengthintreatment_1to2years_exits_allintx	The total number of individuals leaving treatment in the reporting period who had been in treatment for between 1 to 2 years
lengthintreatment_2to4years_exits_allintx	The total number of individuals leaving treatment in the reporting period who had been in treatment for between 2 to 4 years

Field	Definition
lengthintreatment_4to6years_exits_allintx	The total number of individuals leaving treatment in the reporting period who had been in treatment for between 4 to 6 years
lengthintreatment_over6years_exits_allintx	The total number of individuals leaving treatment in the reporting period who had been in treatment for over 6 years
Indicator – injecting status – new presentations	
injecting_currently_injecting_newtx	The total number of individuals starting treatment in the reporting period who currently inject
injecting_previously_injecting_newtx	The total number of individuals starting treatment in the reporting period who previously injected
injecting_never_newtx	The total number of individuals starting treatment in the reporting period who have never injected
injecting_declinedtoanswer_newtx	The total number of individuals starting treatment in the reporting period who declined to answer about injecting status
injecting_missing_newtx	The total number of individuals starting treatment in the reporting period with a missing injecting status
Indicator – treatment received - all in treatment	
interventions_prescribing_precdsj	The total number of individuals in treatment in the reporting period who received prescribing (pre-CDSJ NDTMS iteration, where setting not included)
interventions_psycho_precdsj	The total number of individuals in treatment in the reporting period who received psychosocial treatment (pre-CDSJ NDTMS iteration, where setting not included)
interventions_inpatient_detox_precdsj	The total number of individuals in treatment in the reporting period who received inpatient detoxification (pre-CDSJ NDTMS iteration, where setting not included)
interventions_structured_day_precdsj	The total number of individuals in treatment in the reporting period who attended a Structured Day Programme (pre-CDSJ NDTMS iteration, where setting not included)
interventions_residential_rehab_precdsj	The total number of individuals in treatment in the reporting period who attended a residential rehabilitation facility (pre-CDSJ NDTMS iteration, where setting not included)
interventions_other_structured_precdsj	The total number of individuals in treatment in the reporting period who received other structured psychosocial treatment (pre-CDSJ NDTMS iteration, where setting not included)

Field	Definition
interventions_oldyp_precdsj	The total number of individuals in treatment in the reporting period who received young person's treatment (pre-CDSJ NDTMS iteration, where setting not included)
interventions_psychcommunity	The total number of individuals in treatment in the reporting period who received psychosocial treatment in a community setting
interventions_psyinpatient	The total number of individuals in treatment in the reporting period who received psychosocial treatment in an inpatient setting
interventions_psyprimarycare	The total number of individuals in treatment in the reporting period who received psychosocial treatment in a primary care setting
interventions_psyresidentialrehab	The total number of individuals in treatment in the reporting period who received psychosocial treatment in a residential rehab setting
interventions_psyrecoveryhouse	The total number of individuals in treatment in the reporting period who received psychosocial treatment in a recovery house setting
interventions_psyyoungpersons	The total number of individuals in treatment in the reporting period who received psychosocial treatment in a young person's setting
interventions_psymissingsetting	The total number of individuals in treatment in the reporting period who received psychosocial treatment in a missing setting
interventions_psy_total	The total number of individuals in treatment in the reporting period who received psychosocial treatment in a all settings
interventions_precommunity	The total number of individuals in treatment in the reporting period who received prescribing in a community setting
interventions_preinpatient	The total number of individuals in treatment in the reporting period who received prescribing in an inpatient setting
interventions_preprimarycare	The total number of individuals in treatment in the reporting period who received prescribing in a primary care setting
interventions_preresidentialrehab	The total number of individuals in treatment in the reporting period who received prescribing in a residential rehab setting
interventions_prerecoveryhouse	The total number of individuals in treatment in the reporting period who received prescribing in a recovery house setting
interventions_preyoungpersons	The total number of individuals in treatment in the reporting period who received prescribing in a young person's setting

Field	Definition
interventions_premissingsetting	The total number of individuals in treatment in the reporting period who received prescribing in a missing setting
interventions_pre_total	The total number of individuals in treatment in the reporting period who received prescribing in a all settings
interventions_recsuppcommunity	The total number of individuals in treatment in the reporting period who received recovery support in a community setting
interventions_recsuppinpatient	The total number of individuals in treatment in the reporting period who received recovery support in an inpatient setting
interventions_recsuppprimarycare	The total number of individuals in treatment in the reporting period who received recovery support in a primary care setting
interventions_recsuppresidentialrehab	The total number of individuals in treatment in the reporting period who received recovery support in a residential rehab setting
interventions_recsupprecoveryhouse	The total number of individuals in treatment in the reporting period who received recovery support in a recovery house setting
interventions_recsuppyoungpersons	The total number of individuals in treatment in the reporting period who received recovery support in a young person's setting
interventions_recsuppmissingsetting	The total number of individuals in treatment in the reporting period who received recovery support in a missing setting
interventions_recsupp_total	The total number of individuals in treatment in the reporting period who received recovery support in a all settings
interventions_preallyear	The total number of individuals in treatment in the reporting period who received only prescribing in the year
interventions_community_setting	The total number of individuals in treatment in the reporting period who received structured treatment in a community setting
interventions_inpatient_setting	The total number of individuals in treatment in the reporting period who received structured treatment in an inpatient setting
interventions_primarycare_setting	The total number of individuals in treatment in the reporting period who received structured treatment in a primary care setting
interventions_residentialrehab_setting	The total number of individuals in treatment in the reporting period who received structured treatment in a residential rehab setting

Field	Definition
interventions_recoveryhouse_setting	The total number of individuals in treatment in the reporting period who received structured treatment in a recovery house setting
interventions_yp_setting	The total number of individuals in treatment in the reporting period who received structured treatment in a young person's setting
interventions_missing_setting	The total number of individuals in treatment in the reporting period who received structured treatment in a missing setting
interventions_total_individuals_any_struct_int_with_settings	The total number of individuals in treatment in the reporting period who received any harm reduction or structured treatment
interventions_total_individuals_any_struct_int_incl_precdsj	The total number of individuals in treatment in the reporting period who received any harm reduction or structured treatment of all people in treatment, including pre-CDSJ interventions (where setting is not included), in the reporting period
interventions_total_individuals_cdsj_struct_intervention	The total number of individuals in treatment in the reporting period who received any post-CDSJ treatment interventions (where setting is included)
interventions_total_individuals_precdsj_struct_intervention	The total number of individuals in treatment in the reporting period who received any pre-CDSJ treatment interventions (where setting is not included)
interventions_allcommunity	The total number of individuals in treatment in the reporting period who received either recovery support or structured treatment in a community setting
interventions_allinpatient	The total number of individuals in treatment in the reporting period who received either recovery support or structured treatment in an inpatient setting
interventions_allprimarycare	The total number of individuals in treatment in the reporting period who received either recovery support or structured treatment in a primary care setting
interventions_allresidentialrehab	The total number of individuals in treatment in the reporting period who received either recovery support or structured treatment in a residential rehab setting
interventions_allrecoveryhouse	The total number of individuals in treatment in the reporting period who received either recovery support or structured treatment in a recovery house setting
interventions_allyp	The total number of individuals in treatment in the reporting period who received either recovery support or structured treatment in a young person's setting
interventions_allmissing	The total number of individuals in treatment in the reporting period who received either recovery support or structured treatment in a missing setting
Indicator – disabilities - new presentations	

Field	Definition
disability_behaviour_newtx	The total number of citations of a behavioural disability among people starting treatment in the reporting period
disability_hearing_newtx	The total number of citations of a hearing disability among people starting treatment in the reporting period
disability_manual_newtx	The total number of citations of a manual disability among people starting treatment in the reporting period
disability_learning_newtx	The total number of citations of a learning disability among people starting treatment in the reporting period
disability_mobility_newtx	The total number of citations of a mobility disability among people starting treatment in the reporting period
disability_perception_newtx	The total number of citations of a perception disability among people starting treatment in the reporting period
disability_personal_newtx	The total number of citations of a personal disability among people starting treatment in the reporting period
disability_progressive_newtx	The total number of citations of a progressive disability among people starting treatment in the reporting period
disability_sight_newtx	The total number of citations of a sight disability among people starting treatment in the reporting period
disability_speech_newtx	The total number of citations of a speech disability among people starting treatment in the reporting period
disability_other_newtx	The total number of citations of an unlisted disability among people starting treatment in the reporting period
disability_nodisability_newtx	The total number of individuals starting treatment in the reporting period with no disabilities
disability_notstated_newtx	The total number of individuals starting treatment in the reporting period who did not state a disability
disability_allmissing_newtx	The total number of individuals starting treatment in the reporting period missing a disability status
disability_any_newtx	The total number of individuals starting treatment in the reporting period citing at least one disability
Indicator – sexuality - new presentations	

Field	Definition
sexuality_hetero_newtx	The total number of individuals starting treatment in the reporting period who are heterosexual
sexuality_gaylesbian_newtx	The total number of individuals starting treatment in the reporting period who are gay/lesbian
sexuality_bi_newtx	The total number of individuals starting treatment in the reporting period who are bisexual
sexuality_asked_newtx	The total number of individuals starting treatment in the reporting period who were asked their sexuality and were unsure
sexuality_notstated_newtx	The total number of individuals starting treatment in the reporting period who did not state their sexuality
sexuality_other_newtx	The total number of individuals starting treatment in the reporting period with another sexuality, not listed elsewhere,
sexuality_missing_newtx	The total number of individuals starting treatment in the reporting period with a missing sexuality status
Indicator – religion - new presentations	
religion_bahai_newtx	The total number of individuals starting treatment in the reporting period who are Ba'hai
religion_buddhist_newtx	The total number of individuals starting treatment in the reporting period who are Buddhist
religion_christian_newtx	The total number of individuals starting treatment in the reporting period who are Christian
religion_hindu_newtx	The total number of individuals starting treatment in the reporting period who are Hindu
religion_jain_newtx	The total number of individuals starting treatment in the reporting period who are Jain
religion_jewish_newtx	The total number of individuals starting treatment in the reporting period who are Jewish
religion_muslim_newtx	The total number of individuals starting treatment in the reporting period who are Muslim
religion_pagan_newtx	The total number of individuals starting treatment in the reporting period who are Pagan

Field	Definition
religion_sikh_newtx	The total number of individuals starting treatment in the reporting period who are Sikh
religion_zoroastrian_newtx	The total number of individuals starting treatment in the reporting period who are Zoroastrian
religion_other_newtx	The total number of individuals starting treatment in the reporting period with another religion, not listed elsewhere,
religion_none_newtx	The total number of individuals starting treatment in the reporting period with no religion
religion_decline_newtx	The total number of individuals starting treatment in the reporting period who declined to state a religion
religion_unknown_newtx	The total number of individuals starting treatment in the reporting period with an unknown religion
religion_missing_newtx	The total number of individuals starting treatment in the reporting period with a missing religion
