

NDTMS Core Dataset P: data items for YP secure estates

Client	
Initial of client's first name	!
Initial of client's surname	!
Client birth date	!
Client sex at registration of birth	!
Ethnicity	
Country of birth	

KEY	
Items that should be updated over time (eg at scheduled reviews)	✓
Data items that, if changed, will generate a 'missing' record that will need to be resolved in the next NDTMS submission	!
Items in red are new Core Dataset P items that should be collected from 1 st April 2020	Red text
Items in bold refer to prior to entering custody	Bold

Episode	
Agency code	!
Client reference	
Software system used (auto generated)	
Consent for NDTMS	✓
Postcode	
DAT of residence	
Initial reception date	
Reception date	
Transferred from	
Triage date	!
Pregnant	
Parental responsibility for a child aged under 18	
Do any of these children live with the client	
How many children under 18 in total live in client house	
What help are the children receiving (1)	
What help are the children receiving (2)	
What help are the children receiving (3)	
Problem substance number 1	
Problem substance number 2	
Problem substance number 3	
Injecting status	
AUDIT score	
Hep B intervention status	✓
Hep C intervention status	✓
Dual diagnosis	
Accommodation need	
Care status	
Sexually exploited	
Self-harmed	
Education/employment/training status	
Registered with GP	
Engaged in unsafe sex	
Subject to a Child Protection Plan (CPP)	
Involved in gangs	
Affected by child criminal exploitation	
Affected by substance misuse in close family / household	
Ever affected by domestic abuse	
Discharge date	
Discharge reason	
Exit date	
Exit reason	
Exit destination	
Referral on release status	

Intervention	
Treatment intervention	!
Intervention start date	!
Intervention end date	

YPOR	
YPOR date	!
Treatment stage	

NDTMS Core Dataset P

Secure setting interventions

	Adult dataset interventions	YP dataset interventions
Clinical	<ul style="list-style-type: none"> Opioid reduction – methadone Opioid reduction – buprenorphine Opioid maintenance – methadone Opioid maintenance – buprenorphine Benzodiazepines detoxification Lofexidine Naltrexone pre-release Opioid re-induction Alcohol prescribing 	<ul style="list-style-type: none"> Specialist pharmacological interventions
Psychosocial	<ul style="list-style-type: none"> Structured day programme Psychosocial intervention mental disorder Other structured psychosocial intervention Other structured intervention Alcohol brief intervention 	<ul style="list-style-type: none"> Counselling Cognitive behavioural therapy Motivational interviewing Relapse prevention Family work Specialist harm reduction
