NDTMS Core Dataset Q:
data items for all clients of providers reporting the adult dataset.

Office for Health Improvement & Disparities

Episode

Item	
Agency code	!
Client reference	
Software system used (auto generated)	
Consent for NDTMS	!
Consent for IPS	
Full postcode of residence (IPS)	
Postcode	✓
DAT of residence	✓
Local Authority	✓
Referral date to service	
Referral date	!
Referral source	
Triage date	
Previously treated	
TOP care coordination	✓
Client stated sexual orientation	
Religion or belief	
Disability 1	
Disability 2	
Disability 3	
Current housing situation	
Threatened with homelessness in the next 56 days	
Employment status	
Time since last paid employment	
Veteran of the British armed forces	
Ever received money or goods in exchange for sex	
Ever been the victim of domestic abuse	
Ever abused someone close to them	
Pregnant	
Parental responsibility for a child aged under 18	
Do any of these children live with the client	
How many children under 18 in total live in client house	
What help are the children receiving (1)	
What help are the children receiving (2)	
What help are the children receiving (3)	
Problem substance number 1	
Age of first use of problem substance number 1	
Problem substance number 2	
Problem substance number 3	
Injecting status	
SADQ score	
Health care assessment date	
Hep B intervention status	
Hep C intervention status	
Hep C test date	
Hep C antibody test status	
Hep C PCR test status	
Referred for Hep C treatment	
HIV status	
HIV latest test date	
Referral for alcohol-related liver disease	
Issued with naloxone at episode start	
Administered with naloxone to reverse effects of overdose	
Mental health treatment need	
Receiving treatment for mental health need(s) (1)	
Receiving treatment for mental health need(s) (2)	
Receiving treatment for mental health need(s) (3)	
Discharge date	
Discharge reason	

Client

Item	
Initial of client's first name	!
Initial of client's surname	!
Client birth date	!
Client stated sex	!
Ethnicity	
Country of birth	
Client participating in IPS	
National Insurance Number (IPS)	

KEY

Description	
Items that should be updated over time (eg at care plan reviews)	✓
Data items that, if changed, will generate a 'missing' record that will need to be resolved in the next NDTMS submission	!
New data item for CDS-Q	Red Text

Intervention

Item	
Treatment intervention	!
Date referred to intervention	!
Intervention setting	
Date of first appointment offered for intervention	
Intervention start date	
Intervention end date	

Combined Review Form (CRF)

TOP

Item	
Outcomes profile date	!

CIR

Item	
Client Information Review (CIR) date	!
CIR stage	
CIR data items	

Sub Intervention

| Item	
Sub intervention assessment date	!
Sub interventions received	
Proportion of face-to-face appointments	

NDTMS Core Dataset Q

Structured

Pharmacological Intervention

- Methadone (oral solution) / Buprenorphine (tablet/wafer) prescribing intention / daily dose / supervised consumption
- Buprenorphine depot injection / Diamorphine injection / Methadone injection / Benzodiazepine / Stimulant / Pregabalin / Gabapentin / Naltrexone prescribing intention
- Chlordiazepoxide /Diazepam/Carbamazepine/Other prescribed medication for alcohol withdrawal
- Acamprosate/Disulfiram alcohol relapse prevention
- Vitamin B & C supplement to prevent/treat Wernicke's encephalopathy/Wernicke-Korsakoffs
- Other medication for treatment of drug misuse/dependence/withdrawal/associated symptoms

Psychosocial Intervention

- Client involved with Motivational Interventions
- Client involved with Contingency Management (Drug Focused)
- Client involved with Family and Social Network Interventions
- Client involved with cognitive and behavioural interventions (Substance Misuse Specific)
- Evidence-based psychological intervention for co-existing mental health problems
- Client involved with Psychodynamic Therapy
- Client involved with 12-step work
- Client involved in Counselling – BACP Accredited

Non-structured

Recovery Support

- Client provided with Peer support involvement
- Client provided with Facilitated access to mutual aid
- Client provided with Family Support
- Client provided with Parenting Support
- Client provided with Housing support
- Client provided with Employment support
- Client provided with Education and Training support
- Client provided with supported work projects
- Client provided with recovery check ups
- Structured evidence-based psychosocial interventions to support relapse prevention
- Client provided with complementary therapies
- Client provided with Mental health Interventions
- Client referred to a stop-smoking intervention
- Client provided with domestic abuse support for victim/survivor
- Client provided with domestic abuse support for perpetrator
- Client provided with prescribing for relapse prevention (post structured treatment only)

Intervention Setting

Intervention Setting	
Community	The setting that this intervention is provided in, if the setting differs
Inpatient Unit	from the one that the provider is registered under in the agency table.
Primary Care	This field should be used where a provider has multiple treatment
Secure Setting	settings or where the client is being treated at another setting that
Residential	would not report to NDTMS. If the setting of the intervention is the
Recovery House	same as that registered then this field must be left blank.

TOP Timeline

Week | -4 | -3 | -2 | -1 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 | 21 | 22 | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 | 31 | 32 | 33 | 34 | 35

Start
of new treatment journey

+/- 2 weeks of first structured intervention start date

Recall period is 28 days prior to intervention start date

A Treatment Outcomes Profile (TOP) should be completed at least every six months throughout the client's treatment journey.

Review
within first 6 months

Review
at least every 6 months

Exit
+/- 2 weeks of final discharge date
Recall period is 28 days prior to discharge date

Dataset Items Timeline

Week | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 | 21 | 22 | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 | 31 | 32 | 33 | 34 | 35 | 36

Treatment Episode Start

Optional CRF

A Full Combined Review Form (CRF) must be returned **at least every 6 months** and at **discharge**.

CRF at least every 6 months

CRF

Treatment Episode Discharge

Submit a partial CIR if any of the BBV (or other) data item responses have changed.

NDTMS Date Sequence Timeline

Office for Health Improvement & Disparities

Healthcare Assessment Date

- Expected to be done after Triage Date and as part of an overall comprehensive assessment process, i.e., not at the Modality Start Date, as we would question whether there would be sufficient time to conduct a thorough and comprehensive assessment process at the first treatment appointment

- Date at which the care co-ordinator is satisfied that initial HCA is completed

Date Referred to Intervention

- For the *first* intervention of treatment within an episode this should be considered as a date referred to *Treatment Service (could be a third-party referral)*. This is expected to be earlier than or the same as the referral date

- For interventions after the first within an episode it is the date the key worker agreed with the client that they were to have this treatment

Referral date

- Date referred for this episode of **structured** treatment

- Expected to be same as or after Date Referred to Intervention

First Appointment Offered Date for Intervention

- Expected to be the same as or after Triage / Initial Presentation Date

- Not Expected to be after Intervention Start Date

Intervention End Date

- Expected to be after the Intervention Start Date

- Can be same as Intervention Start Date

Referral date to service

- Date client was initially referred to this service.

- For structured or non-structured treatment.

Triage / Initial Presentation Date.

- Date of first face-to-face presentation for structured treatment.

- Expected to be the same as or after the Referral date

Intervention Start Date

- Expected to be same as or after the Triage / Initial Presentation date and first appointment offered date for modality

- Complete the **setting** that the intervention is delivered in, if it is different to your agency's default setting

Discharge Date

- Expected to be the latest date in this sequence

- Can be the same as or after Intervention End Date

| 1st April | 1st May | 19th May | 19th May | 21st May | 28th May | 5th November | 5th November |
